PC Paintbrush 2.55 (Tecmar OEM)

https://vetusware.com/download/PC%20Paintbrush%202.55%20_Tecmar%20OEM_/?id=18152

This appears to be an OEM version provided with Tecmar Graphics Master or Tecmar Graphics Tender video card hardware. It is configured for a Tecmar video card, and only seems to include drivers for these Tecmar cards. However, the lower resolution drivers will work with IBM CGA.

Phasar 1.88

<https://vetusware.com/download/Phasar%201.88/?id=18151>

Phasar is an easy to use, low cost "budget" home accounting system, and register for DOS.

Zortech C++ 3.0r4

<https://vetusware.com/download/Zortech%20C%2B%2B%203.0r4/?id=18149>

Zortech C++ 3.0r4 compiler.
