Logitech Finesse is a DTP for GEM (2.2). There are 7 720KB images created with DSKIMAGE (included). More informations in teh readme file.

Masterfile PC ?

Masterfile PC is a relational database for DOS. Although I haven't used it for more than 30 years I've always kept a copy of it so I am happy it may "survive" by adding it to Vetusware :) There are three files, unpack the archive in any directory and run mfpc.exe, that's it.
