Kairos 4.0

<https://vetusware.com/download/Kairos%204.0/?id=18460>

"The program Kairos 4.0 is a general calendar conversion program designed to meet the needs of historians of astronomy, general historians, and anyone who needs to interpret the dates found in historical sources. Historians of astronomy are so often required to convert dates from one calendar to another that they would now naturally look for software designed to make this easy and straightforward." - Calendars, Chronology, History, Paleography, Calendar Conversion. Demo version sourced from the Internet Archive Wayback Machine.

Sony Handycam Software 1.8.1 (KO)

<https://vetusware.com/download/Sony%20Handycam%20Software%201.8.1%20KO/?id=18459>

It was extracted from the actual Handycam software CD. In my case, I extracted it from the software CD of the DCR-DVD755 camera. I think it will probably be compatible with the DCR-DVD105/205/305/605/705/755 series.
