Jingle Disk for IBM and Apple II 1986

<https://vetusware.com/download/Jingle%20Disk%20for%20IBM%20and%20Apple%20II%201986/?id=18558>

ThoughtWare's Jingle Disk was a stocking stuffer for the computer geek in 1986. It plays several pieces of music on the PC speaker as it animates several winter images. Archive includes disk images of each side of this "flippy" disk. The first side is a 180k MS-DOS image for IBM PC computers. The second side is a 140k disk image for Apple II computers. Includes Kryoflux dump of each side.
