#### Attack 1.1

<http://vetusware.com/download/Attack%201.1/?id=12354>

The mission is "to destroy Apple computer manufacturing plant"... archaic game, maybe the first endorsing corporate warfare!

#### BATCHCOM 1.2

<http://vetusware.com/download/BATCHCOM%201.2/?id=12351>

"Compiles .BAT files into .COM programs, supports many additional commands for program flow, variables, etc."

#### DOSLFN 0.41c

<http://vetusware.com/download/DOSLFN%200.41c/?id=12355>

LFN (long file name) driver for DOS

#### LIST 9.1

<http://vetusware.com/download/LIST%209.1/?id=12353>

File viewing and browsing utility.

#### MaxClock 3.1

<http://vetusware.com/download/MaxClock%203.1/?id=12359>

High-precision digital astronomical clock. Edit .CFG file to setup your geographical location.

#### NCSA Telnet 2.3.08

<http://vetusware.com/download/NCSA%20Telnet%202.3.08/?id=12356>

Telnet client

#### TAR 3.20g

<http://vetusware.com/download/TAR%203.20g/?id=12358>

Handles TAR (Tape ARchive) archives.

#### TXT2COM 1.1

<http://vetusware.com/download/TXT2COM%201.1/?id=12350>

"Converts .TXT files to .COM programs that display the text. Includes several commands so you can make entire programs!"

#### UniForm-PC 2.17

<http://vetusware.com/download/UniForm-PC%202.17/?id=12357>

UniForm-PC allows you to directly access CP/M diskettes as though they were DOS diskettes. After UniForm-PC is installed, it will create a new drive letter on your computer. The files are not altered in any way. You can access CP/M programs but cannot run them.

#### Word Count

<http://vetusware.com/download/Word%20Count/?id=12360>

Counts characters, words and lines in text file. (assembly source included)

ZAP 3.3

<http://vetusware.com/download/ZAP%203.3/?id=12352>

Sober but useful file manager.
