WordPerfect 5.1

<http://vetusware.com/download/WordPerfect%205.1/?id=11765>

This is WordPerfect 5.1 for Xenix. Unpack all the disks (tar -xvf /dev/dsk/f0q18d ) from where I wanted it to live (say /usr/wordperfect) then run the ./wpinstall installer. I don't have the key file, so use all zero's which should give you a single user install.
