IBM Assistant Accounting Solutions 1.00

<http://vetuware.com/download/IBM%20Assistant%20Accounting%20Solutions%201.00/?id=13291>

This is a set of accounting related productivity templates for use with IBM Filing Assistant 1.0x. This archive contains one 320K disk image in Raw, ImageDisk, and Teledisk formats. Note: This disk is formatted for DOS 1.x and may not open in WinImage.

Microsoft QuickBASIC Compiler 4.00

<http://vetuware.com/download/Microsoft%20QuickBASIC%20Compiler%204.00/?id=13289>

4.0 introduced threaded p-code technology, which error-checks lines when typed and runs programs almost instantly in the editor environment. You can load multiple modules within the editing environment. Hercules graphics support Recursive SUBprogram procedures User-defined TYPE variables (TYPE...END TYPE) Huge dynamic arrays (larger than 64K) Fixed-length strings CALLs to high-level languages (Microsoft C, FORTRAN, Pascal) Enhanced debugger in editor allows setting breakpoints, watch points, and watch variables, plus MS CodeView compatibility. New on-line help for Basic syntax.

Microsoft QuickBASIC for Mac 1.00

<http://vetuware.com/download/Microsoft%20QuickBASIC%20for%20Mac%201.00/?id=13290>

QuickBasic for the Mac combines the interpreter from Microsoft Basic 3.0 and the Microsoft BASIC compiler, that were sold previously separately. Requires a Macintosh Plus or later (128k ROM required), and System 4.1/Finder 5.5 or higher. MacOS 7.x or later is not compatible. A minor update "1.00e" makes it compatible with MacOS 7.x, but it is still not compatible with pure 32-bit Macs (more than 16MB of RAM). Microsoft Basic/QuickBasic for the Mac was officially discontinued in 1995. This archive contains two 800K Macintosh disk images in raw sector format.

SCO Xenix 286 2.2.1

<http://vetuware.com/download/SCO%20Xenix%20286%202.2.1/?id=13292>

This is a version of Xenix for 286 CPUS. Xenix is a multitasking multiuser operating system based on Unix.

SCO Xenix 86 2.1.3

<http://vetuware.com/download/SCO%20Xenix%2086%202.1.3/?id=13293>

This is a version of Xenix for 8088/8086 CPUS. Xenix is a multitasking multiuser operating system based on Unix.

Turbo Prolog 1.1

<http://vetuware.com/download/Turbo%20Prolog%201.1/?id=13294>

Borland Turbo Prolog 1.1 disk image.
