Medical Reference Organizer Database

MIMICS 6.0

<http://vetusware.com/download/MIMICS%206.0/?id=13325>

Medical - "The MIMICS software is the medical front end in which the segmentation of the structures can be done with sophisticated three dimensional selection and editing tools. The program also generates high resolution 3D renderings in different colors starting from the slice information. After this visualization, a file can be made to interface with CTM or MedCAD."

NaturBase Professional 1.5
