AT&T CAD Translator 1.5

[http://vetusware.com/download/AT\\_T%20CAD%20Translator%201.5/?id=13357](http://vetusware.com/download/AT_T%20CAD%20Translator%201.5/?id=13357)

IGES file to TOPAS MDL file converter

AT&T TOPAS/VGA 4.2

[http://vetusware.com/download/AT\\_T%20TOPASVGA%204.2/?id=13354](http://vetusware.com/download/AT_T%20TOPASVGA%204.2/?id=13354)

Animation system, and Hi-res scanline raytracer. Supports Truevision TARGA, VISTA, as well as most VGA cards.

Copy II PC 2.40

<http://vetusware.com/download/Copy%20II%20PC%202.40/?id=13360>

Copy II PC is a disk duplicator program for DOS that copies many copy protected programs. It looks like the executable for this specific version isn't on the icequake mirror.

Ontrack Disk Manager 5.22

<http://vetusware.com/download/Ontrack%20Disk%20Manager%205.22/?id=13361>

Ontrack disk manager is a tool for formatting and setting up hard drives. It includes a BIOS "overlay" program that works around drive size limits in older BIOSes.

TARGATOOLS 1

<http://vetusware.com/download/TARGATOOLS%201/?id=13355>

C, ASM, and development libraries supporting TARGA graphics boards, TARGA file (.TGA) reading, writing

VERSACAD 5.1

<http://vetusware.com/download/VERSACAD%205.1/?id=13356>

T&W Systems 2D, 3D CAD drafting program (superior to AutoCAD at the time)

Versaplot unknown

<http://vetusware.com/download/Versaplot%20unkown/?id=13358>

FORTRAN source code for the VERSAPLOT 2D graphics plotting package. This is a library of FORTRAN programs to create vector plots, and rasterize to printers (Versatec, but easily adaptable to others)
