Corel Perfect Office 3.0 for Windows 3.1/Windows 95 - Corel Corporation Mar 25, 1996 *** This package consists of core installation files from the original CD-ROM as distributed by "Scene warez release Group DoD", screen and/or product shots, and this information file. Unpack the archive including folder to the root of hard drive and install. A SERIAL/REGISTRATION CODE IS PROVIDED FOR THE APPLICATIONS IN THIS ARCHIVE. *** Corel Perfect Office SN: 755-1234567 *** Six Powerful Programs. One Powerfully Integrated Suite. Wordperfect 6.1, Quattro Pro 6.0, Presentations 3.0, InfoCentral 1.0a, Envoy, Groupwise. Within weeks of acquiring Wordperfect from Novell, Corel released this edition, with very minor changes to improve Windows 95 compatibility, and to place their own branding on the files - just enough to be able to claim Windows 95 compatibility for a 16bit office suite, and before losing any more market share. - AppleSeed 2017 -

Xtree Gold for Windows 4.0 - Central Point Software August 30, 1994 *** This package consists of 3 - 1.44meg diskette IMG images, product shots and this information file. NO SERIAL/REGISTRATION KEY IS NEEDED FOR THIS APPLICATION *** A Windows File Manager with famous DOS roots. Using two panes, one displays folders and files in a hierarchical, or "Tree" representation while the second one is used to perform traditional file operations like Copy/Move/Delete/Rename. There were exactly two DOS file managers that slugged it out for popularity in the retail space: XTree and Norton Commander. You were either a fan of one or the other - there was no middle ground! This is the one release by Central Point after it acquired XTree Corporation; a year later, Central Point was purchased by Symantec Corporation ("the other file manager" Peter Norton's Norton Commander). No further releases were made by Symantec. Some notable features: Supported long file names - a year before Windows 95 was actually released Over 120 WYSIWYG file viewers PKZip 2.x support for ZIP files Both DOS and standard Windows keyboard shortcuts (user switchable). System Requirements: Windows 3.1, Windows 95 or later 4 MB RAM 6.5 MB disk space 386 CPU -
