Q&A Write for Windows 3.0

http://vetusware.com/download/Q_A%20Write%20for%20Windows%203.0/?id=13435

Q&A Write for Windows 3.0 - Sym,antec Corporation October 14, 1994 List Price: \$69.00 Q&A Write for Windows is a word processor with built-in flat-file database. It has both a spell checker and thesaurus. Wikipedia: "Q&A was a database and word processing software program for IBM PC-compatible computers published by Symantec and partners from 1985 to 1998. It was written by a team headed by Symantec founder Dr. Gary Hendrix, Denis Coleman, and Gordon Eubanks." "Released by Symantec in 1985 for MS-DOS computers, Q&A's flat-file database and integrated word processing application is cited as a significant step towards making computers less intimidating and more user friendly. Among its features was a natural language search function based on a 600 word internal vocabulary." Requirements: - Any system running Windows 3.1, 3.11 - 4Mb hard disk space (or copy essential files to floppy) - AppleSeed - 2017 -
