Corel Ventura Publisher 4.2 - Corel Corporation November 01, 1993 7 - 1.44 Mb floppies OS: Windows 3.1 This archive consists of separate zip files of each of the 7-diskette set. Desktop Publishing Software (DTP) Formerly Xerox Vetnura Publisher, Corel acquired the rights to VP and had the product on the shelves in late fall 1993 under the Corel banner. Chapter-based, Ventura Publisher is a page layout and publishing suite. For a time, it reigned supreme as the toolset of choice for the very best in professional and commercial printed publications. Every possiblilty was available; From custom page/paper sizes, to font mixing and matching, and full graphics capabilites. The resulting document could be printed in-house - or sent directly to offset printers without forther work. Corel Ventura Publisher 4.2 is the initial release under the Corel name. Except for a few minor changes, this was just a bundling of Ventura Publisher 4.1.1, DataBase Publisher and Corel fonts and clipart in order to get the product on the shelves with the Corel name. - AppleSeed 2017 -
