Borland C++ Builder 1.0 German

Control Manager 1.1

<http://vetusware.com/download/Control%20Manager%201.1/?id=13997>

The startup of Windows 95 takes too long for you? Do you want the middle button of your mouse to be double clicked? Etc ... Control Manager gives you the ability to adapt Windows 95 to your needs: * Start your most used applications using keyboard shortcut keys * Modify the Shell, Explorer, System, and All of your icons. * Do you also have functions that you want to change quickly and comfortably? With the built-in function editor, set up your own dialogs. * Were you already mistaken in the name of your company or user when installing Windows 95? Control Manager you can fix these errors and many more.
