Sidekick 95 (IT)

[//vetusware.com/download/Sidekick%2095%20IT/?id=14516](http://vetusware.com/download/Sidekick%2095%20IT/?id=14516)

This is Sidekick 95 localized in Italian. It works in Windows 10 (I suppose in previous versions also) but only if installed inside the user directory (e.g. "C:\Users\John\Sidekick"). Also, try to respect the 8.3 filename standard for the installation path, without spaces or symbols.
