### IBM PC Storyboard 1.11

<http://vetusware.com/download/IBM%20PC%20Storyboard%201.11/?id=14594>

IBM Storyboard is an easy-to-use system for preparing and giving color presentation. Helps you create screen displays of text, figures, and charts plus use displays from other PC DOS programs. Lets you organize these into stories that can be presented with a wide variety of special effects. Archive includes three 5.25" 360k floppy disk images.
