Fortran PowerStation for Windows NT 1.00

<http://vetusware.com/download/Fortran%20PowerStation%20for%20Windows%20NT%201.00/?id=14769>

This version of PowerStation fortran is for the release version of Windows NT. It not only generates correct Win32 executables, but itself will run on any Win32 based Operating System.
