Borland Brief 3.1 for OS/2 3.1

<http://vetusware.com/download/Borland%20Brief%203.1%20for%20OS2%203.1/?id=15003>

BRIEF (Basic Reconfigurable Interactive Editing Facility). Programmer's text editor with a built in C-like language. It is in every way comparable to EMACS and vi.
