HOTC Command Processor 1.04

<http://vetusware.com/download/HOTC%20Command%20Processor%201.04/?id=15021>

This COM program is used to establish a secondary DOS Command Processor via a HOT key, allowing the user to execute DOS commands while in an application such as an editor, spreadsheet, et cetera but requiring a limited amount of resident memory so that it may be used in small systems as well as large ones. Marked as "IBM Internal Use Only"
