#### AutoMac III Macro Package 3.02

<http://vetusware.com/download/AutoMac%20III%20Macro%20Package%203.02/?id=15253>

This is a macro and tool disk supplied with Microsoft Word 3.02 for Macintosh. Includes AutoMac III Macro Package and Word Finder Electronic Thesaurus. For Mac 512Ke, Plus, SE, or II.

#### Celebrity 1.0

<http://vetusware.com/download/Celebrity%201.0/?id=15254>

Celebrity is a powerful word processing program that includes a Speller, Thesaurus, Forms System, Report Writer, Calculator, Calendar, and File Cabinet. It was advertised as a solution for novice users, however the command based interface makes it less than user friendly. Hint: You must hit "PrintScr" to return to the menu. This archive contains six 360k 5.25" floppy disk images. disk01 - Startup disk02 - System disk03 - Hard Dictionary 1 disk04 - Hard Dictionary 2 disk05 - Floppy Dictionary disk06 - Tutorial

#### Mark Williams Let's C 3.1.1

<http://vetusware.com/download/Mark%20Williams%20Lets%20C%203.1.1/?id=15251>

The Mark Williams Let's C compiler was powerful C compiler for MS-DOS. Let's C was a subset of the Mark Williams C Programming System, and the first low cost entry-level professional C compiler for the IBM PC. It was also the first compiler to have a C source-level debugger.

#### Mark Williams Lets C 4.0.12

<http://vetusware.com/download/Mark%20Williams%20Lets%20C%204.0.12/?id=15252>

The Mark Williams Let's C compiler was powerful C compiler for MS-DOS. Let's C was a subset of the Mark Williams C Programming System, and the first low cost entry-level professional C compiler for the IBM PC. It was also the first compiler to have a C source-level debugger.
