Turbo C++ 3.0 3.0

<http://vetusware.com/download/Turbo%20C%2B%2B%203.0%203.0/?id=15282>

Turbo C is a product of Borland Corporation of the United States. Borland is a large company specializing in software development and development. The company has launched a set of Turbo series software, such as Turbo BASIC, Turbo Pascal, Turbo Prolog, which are very popular among users.

TurboPascal 7.0 7.0

<http://vetusware.com/download/TurboPascal%207.0%207.0/?id=15280>

Pascal is a high-level programming language common to computers. It was designed and founded by Professor Niklaus Wirth of Switzerland in the late 1960s. The Pascal language, named after French mathematicians, has become one of the most widely used DOS-based languages. Its main features are: strict structured form; rich and complete data types; automatic initialization of variables (storage units) when running programs. It saves trouble; high efficiency; strong ability to check.

Turbo_C++_Runtime_Library 3.0
