This is INSTALLED COPY of VFP 7. You can make PROJECT and EXE. Just extract the ZIP file and run VFP7.EXE. If you want to distribute the EXE just copy the DLL ( VFP7R, VFP7RENU and VFP7T ) in the same folder with the EXE file -- OR -- copy the DLL files in SYSTEM32 folder. You can run it with MS Win98 up to Win8. Good Luck ! (SugaR)
