Really nice strategy game in an unconventional setting: Command your ants, bugs and flies and gain victory over your enemy insects. Runs in Dosbox: SoundBlaster 16 on IRQ7/220h and VESA compatible graphics card (800x600@16 colors). German version, unfortunately no option to change the language.

Good military air traffic controller simulation with digitized sound. Works without problem in Dosbox. Use F1 / Alt-F1 for help
