http://vetusware.com/download/American%20Heritage%20Electronic%20Dictionary%203.0%20For%20DOS/?id=11961
Houghton Mifflin American Heritage Electronic Dictionary is a DOS TSR program that gives you instant searchable access to an entire dictionary.

CodeBase 5.1
http://vetusware.com/download/CodeBase%205.1/?id=11962
CodeBase is a fast database engine for C and C++ programmers. CodeBase comes with it's own report engine, which allows distribution, in which the user can create their own reports. CodeBase is portable across all major platforms.   Bit optimization - Query Technology allows you to query a 500,000 record data file in less than a second.   The Codebase library comes with pre-compiled DLL and full source code.

DS Optimize 2.00a 2.00a
http://vetusware.com/download/DS%20Optimize%202.00a%202.00a/?id=11963
DS OPTIMIZE is a disk defragmenter tool. It has a few more options than its competitors, and has a "fast" mode that does not protect against interruptions. This tool competed against Mace Utilities, The Norton Utilities, PC Tools, and many smaller defragmenter tools.

DS Recover 2.00A
http://vetusware.com/download/DS%20Recover%202.00A/?id=11964
DS Recover is a set of file utilities for DOS that lets you unerase files and directories, and unformat disks.   Requires 256K ram, and DOS 2.0 or later.

fastlynx 1.01
http://vetusware.com/download/fastlynx%201.01/?id=11958
Simple file transfer program. Uses parallel or serial cables. It can download itself from one computer to another. Split screen makes it easy to use, and copy selectively.
