Juke Box 2.3 is a shell for WinPlay3 mp3 player. It will help you organize your playlist and explore folders. It is far more advanced than WinPlay3 itself. Although it is not a stand alone mp3 player but only a shell - you need WinPlay3 to play your mp3's. In order to run Jukebox 2.3 you need to have Win32s subsystem installed.

Visual Basic Standard 3.0 (DE)
