Crack dot Com is hereby releasing the source code to Abuse to the public domain.

Abuse 0.8

<http://vetusware.com/download/Abuse%200.8/?id=15959>

Port of the classic game Abuse to the Simple DirectMedia Layer. Abuse will run at any colour depth and supports fullscreen mode, as well as many other new features. It should also be more portable and hopefully run on a variety of *nix variants, and possibly other systems supported by the SDL library.

Abuse 0.3

Aleph One is an Open Source 3D first-person shooter game, based on the game Marathon 2 by Bungie Software. It is set in a Sci-Fi universe dominated by deviant computer AIs and features a well thought-out plot.
