Jesus Christ! Finally, a game to honour both my parents have been completed. Here in this edition is the final release to Gunner. I hope you have a little bit of fun anyways. You can make it challenging or easy by using the targetting or the ship. It's up to you. Obviously the ship will be harder while the targetting will be super easy even without cheat mode. God bless my mother for working so hard although she is 63 years old. Her name is Huong Thi Vu. She cooks and I wish she would relax, and she has grandkids to take care of. I also would like to mention my real dad Nguyen Binh Thuy for bringing us over to America where we are filled with the opportunity to enjoy our lives.

Jesus Christ.

Here is a fix to a few bugs.

Jesus Christ.

Honours to my real dad Nguyen Binh Thuy

Honours to my real mom Huong Thi Vu

Love to my real sister Nguyen Khoa Thi

Love to my real sister Nguyen Khoa Thuyen

Here is just a few additional to the original final. You can now make your very own music tunes using the included music maker. The updated Gunner will play from your piano file so be sure to save the one you like. Each time you do a new tune the old piano file is erased so be careful.

Thank you Jesus Christ.

P.S.

Please remember to turn the music on when you want to hear your tunes to show off to someone. Otherwise you can leave it off if you just want to quiet. Thxs.

No problem. I like sharing my freewares with people. Of course I like kickbacks hint hint. There is a Proverb from my real parents and it goes something along the line of "What is life if you can't enjoy it with those who matter to you?" So I hope you can enjoy my games and such etcetera with your love ones. If you have a Microsoft XBOX 360 controller or SONY PS One controller with USB adapter on a PC you can play with two people. So go ahead and enjoy with your kids and family members.

Honours to my real father: Nguyen Binh Thuy

While we were together he is able to instill in my to be a moral person who works hard being a programmer for the people.

Honours to my real mother: Huong Thi Vu

While just a kid she made sure I remember to be nice and never take a chance again.

Love to my sister: Nguyen Khoa Thi

While in her presence she says actions means more than words so leave your program to the public to see.

Love to my sister: Nguyen Khoa Thuyen

While in her presence she says do not mess around and make sure you live a righteous life from now on.

Thank you once again for checking out my updates.

There's more planned and for now it is open source; hopefully there's enough support to keep the updates growing!

Jesus Christ.

A long time ago there was a legend of those who did a favor for others. A "kickback" is just another way of saying that "In times of need the people remember you did them a favor and help you out because you could have made a mistake if they didn't. The people are so grateful that although it is normally unusually for them to help those outside their group an exception is made because the memories of the good done to them is always with them!!!"

By the way my games work best in DOSBox 0.74. You can use DOSBox in any system. Whether you have Microsoft, Apple, Linux, etc. and such.

I prefer to use FreeDOS over emulation, but thanks for the tip

P.S. I suggest you edit the first post of the thread and add extra attachments there instead of making all the extra posts. That way it'll be easier to find them.

I'll do that. If I have a major update I'll post it at the first thread under Gunner Final Edition. That attachment will be updated with my latest.

Oh, I see. You want me to do you a favor?

Well I'm on welfare so I don't get any income except the bare minimum. I was convicted of a

crime so I can't get a job. So if you like my games just please spread the words to donate where you can. Gifts can come in many forms. If you see my wife whomever she may be in danger please help. You know things that money can't buy means more than you realize.

I am building a powerful server and when it's ready I could host a website with your games on it. I would have a donations section on it too. I don't know if I can do this yet, but I should be able to. Email me for more info [djdallas55@yahoo.ca](mailto:djdallas55@yahoo.ca). I could easily set up a forum for you.

Honours to my real mom Huong Thi Vu  
Honours to my real dad Nguyen Binh Thuy

Well under my real parents teachings while I was just a kid hopefully I'll be successful one day?  
hehe

In any case I don't think my softwares are that important that it needs a new forum!

I don't need any money at the moment.

Besides you can't buy true love with money just like you can't change who your real parents are!!!!!!!!!!!!!!

Thank you Jesus Christ.

I give this game 4 stars. It could use a little improvement, but definitely a great little game with lots of potential!

Jesus Christ!

It is my greatest work to date and it is open source. I don't know if I will ever make something that good again. It is the combine knowledge of 41 years of life itself. I keep thinking I am born to be a programmer. That game is the closest I've come to one of those XBOX, Playstation, Wii, etc.

---
