Compaq Deskpro Utilities 1.1

<http://vetusware.com/download/Compaq%20Deskpro%20Utilities%201.1/?id=16131>

For Compaq Deskpro (8086) and may work on others like Compaq Portable, Deskpro 286, etc.

Source code included. To setup CPU speed, use -s for slow, -f for fast and -q for query. For key click, use -c 0 to -c 7 0 = off 7 = loudest key click
