IBM Planning Assistant is an easy-to-use electronic spreadsheet, that you may use to analyze "what if" situations in planning, budgeting, projecting, and forecasting. Important: This software is copy protected, and no unprotect is known to exist. To use this software, you must recreate disks using a Kryoflux, SuperCard Pro, Transcopy, or Copy II PC+Snatchit, or use an emulator that supports copy protected disk formats. Archive includes two 5.25" 360k floppy disk images and one 3.5" 720k floppy disk image.
