Advanced DB Master 3.0 3.0

<http://vetusware.com/download/Advanced%20DB%20Master%203.0%203.0/?id=12072>

DB Master is a powerful and flexible database for early personal computers. It was produced by Stoneware Inc., and in 1986 it switched ownership to Macon Software Inc. Advanced DB Master 3.0 was the first native MS-DOS release of the ADB/DB Master series products. Prior releases ran on the Apple II and IBM PC under the UCSD Pascal operating system. Note: You must install ANSI.SYS in your CONFIG.SYS to use this program.
