EGA Paint 2005 (Sony/Paradise Version) Released in 1987 by RIX SoftWorks Inc. For DOS EGA Paint is an easy to use drawing program for DOS. Version "2005" boasts a major user interface revamp over the previous version "EGA Paint 2001", and adds GRID, ARC, Elipse, AIRBRSH, SMOOTH, STRETCH, and FULLPAGE commands. EGA Paint was known for supporting numerous high-resolution modes and special video adapters on the PC. IMPORTANT: This version is protected so that it only runs when a Sony branded Paradise VGA card is installed.
