Venix 86/R 2.0

<https://vetusware.com/download/Venix%2086R%202.0/?id=16495>

Venix for the DEC Rainbow 100. This is the original Rainbow version, and supports only the RD51 Winchester disk.

Venix 86/R plus Boston Software Works enhancements 2.0

<https://vetusware.com/download/Venix%2086R%20plus%20Boston%20Software%20Works%20enhancements%202.0/?id=16496>

Venix 86/R 2.0 for the DEC Rainbow with the Boston Software Works enhancements. These include a better UUCP, bug fixes to the compiler, multiple screen support, support for up to 2 Winchester drives of any type and programs from BSD and Usenet.
