HDD Repair Boot Disk

<https://vetusware.com/download/HDD%20Repair%20Boot%20Disk/?id=16555>

Bootable (DOS6.0) 1.44M floppy image with various tools for analyzing and repairing HDDs. Used this on a 486 Dauphin DTR-1, so it also includes a few small utilities for that system specifically, but most of the tools are general purpose. Includes: * DOS 6 format, fdisk, and sys * Spinrite (analysis & repair) * WDe Disk editor (text mode) * DE Disk Editor (graphical) * Wipe (wipe whole disk with zeros, cli) * KillDisk (wipe whole disk with zeros, text interface) * Ranish Partition Manager * Editpart (partition editor) * DFSee (partition editor) Extremely useful disk if you need to work on your MBR and/or FAT.
