Zdos USA ISO USA

<https://vetusware.com/download/Zdos%20USA%20ISO%20USA/?id=16618>

Scrounged through the site on web archive to get a link.

<https://web.archive.org/web/20120701003221/http://www.zebor.com/main/download/ZdosUSA.iso>

Still downloads the file The file still downloads, the readme gives instructions for installing to a disk, it has a version of dos32a in its dev files thats still useful. Ive installed with qemu or other emulator fine to a hdd and it loads and works, I have not done much with it.
