DeskEngrave V2.0 2.0

<https://vetusware.com/download/DeskEngrave%20V2.0%202.0/?id=16639>

DeskEngrave is a basic True Type Font to Vector Converter that allows saving of G-Code or DXF files. It will convert a single line of text into the required toolpaths for engraving. It can create toolpaths aligned along an arc or straight line. It includes a TTF 'Stick Style' font - Stick40. It is being released to the CNC community free of charge. We hope you enjoy using DeskEngrave.
