RunExit v1.1 1.1

<https://vetusware.com/download/RunExit%20v1.1%201.1/?id=16714>

A simple 16-bit Windows utility intended to run a single application and immediately closing down Windows after that application quits. For example, the command `win c:\runexit\runexit.exe notepad` would start Windows 3.1 with Notepad open and return to the DOS prompt when Notepad is closed.
