IBM OS/2 Version 1.30 Extended Edition 1.30

<https://vetusware.com/download/IBM%20OS2%20Version%201.30%20Extended%20Edition%201.30/?id=16737>

IBM OS/2 Version 1.30 Extended Edition 16-bit for i286/i386 or superior. US English. Contains one Boot Disk, five OS/2 1.30 Installation Disks, nine Extended Edition Installation Disks plus three Presentation Manager Installation Disks. All files are IMA 1440 disk images, ready to be

1.44MB disks or converted to other formats as well. Patched files (BASEDD01.SYS, BASEDD02.SYS and BASEDD03.SYS) in OS2_INSTALL.IMA against the infamous TRAP 0000 (CX=0000 and AX=86A0) error, allowing OS/2 1.30 to be installed on faster machines or virtualized under VirtualBox(tested with VirtualBox 6.1.16 r140961).
