MS-DOS Command Reference (DOS Help) 6.22

[https://vetusware.com/download/MS-DOS%20Command%20Reference%20\\_DOS%20Help\\_%206.22/?id=16822](https://vetusware.com/download/MS-DOS%20Command%20Reference%20_DOS%20Help_%206.22/?id=16822)

Original Command Reference Help file utility included with MS DOS 6.22. Provides detailed help on every DOS command with examples in a text-based interface with keyboard and mouse control. A VERY useful reference for doing more advanced things in DOS and a viable replacement for having an actual DOS manual (this basically was the manual for 6.22). Works in DOSBox, actual DOS, Win95/98 etc.
