IBM Personal Decision Series Data Edition 2.00

<https://vetusware.com/download/IBM%20Personal%20Decision%20Series%20Data%20Edition%202.00/?id=16834>

IBM Data is a high-end flat-file database management system targeted at large corporate users. It is part of the Personal Decision Series family, and reportedly a required prerequisite for other modules or "editions".

IBM Personal Decision Series Reports Plus Edition 2.00

<https://vetusware.com/download/IBM%20Personal%20Decision%20Series%20Reports%20Plus%20Edition%202.00/?id=16836>

Reports+ is a program generator that lets you design your own reports and screens, and enables you to design applications that can be run under the Personal Decision Series Data program.
