Cubase VST 32 5.1 VST 32 5.1 (DE)

<https://vetusware.com/download/Cubase%20VST%2032%205.1%20VST%2032%205.1%20DE/?id=16864>

Cubase is a digital audio workstation (DAW) developed by Steinberg for music and MIDI recording, arranging and editing.

----- VST 32 5.0 - Large update to the Windows product bringing it in sync with the Macintosh product which had included more features such as: 15,360 ppqn internal resolution, Folder Tracks, Marker Tracks, Long Track Names, Transport Bar display options, User-definable Toolbar and key commands, Extended Inspector, Improved drag and drop, Enhanced Toolbox (including Range Selection tool), New Controller Editor, Grooves and Logical presets, Window Sets, Dedicated MIDI Track Mixer. The last version still compatible with windows 95. Applying the update to 5.1 is said to require windows 98.

----- VST 32 5.1 - Was available individually and as part of a Producer's Pack featuring Recycle loop editor and Rebirth virtual instrument (non-VST format), programs developed by Propellerheads but distributed by Steinberg. The Propellerheads products came on Mac and PC compatible CDs, but the disc and serial hasp for Cubase were PC-only. Primarily was introduced to run on the new Windows XP operating system.
