Lotus 1-2-3 2.01 for Government Edition 2.01

Lotus 1-2-3 Release 2.01 for Government Edition is a special release created specifically for sale to the US Military after they prohibited all purchasing of copy protected software. The justification was "so it can be easily loaded on a hard disk during a crisis". Instead of copy protection, this version has an extra nag screen at startup. Inside there are the .img files for a fresh installation AND an already installed folder, tested with DosBox.
