Win311DO5Box with Apps and Games 0.74-3

<https://vetusware.com/download/Win311DO5Box%20with%20Apps%20and%20Games%200.74-3/?id=17019>

This is a compilation of Windows 3.11 for Workgroups with DOS apps and games inside, dedicated to anyone who still loved the old applications and need a nostalgia with them. This should works fine on Win XP x86/x64 and above. Just extract the 7z file then run the Win311DO5Box\_Setup.exe file.
