A Sharper Scaling Version 1.2

<https://vetusware.com/download/A%20Sharper%20Scaling%20Version%201.2/?id=17199>

A utility for high quality image up-scaling. It uses its own technology which you don't get anywhere else (as far as I know).

Scanner Version 2.13

<https://vetusware.com/download/Scanner%20Version%202.13/?id=17197>

This tool uses a sunburst chart to display the usage of your hard disk or other media. The chart shows all major files and folders from all directory levels at once.

ZPaint Version 1.4

<https://vetusware.com/download/ZPaint%20Version%201.4/?id=17198>

A simple tool to create 3D-looking elements for websites and software interfaces. Easily paint raised or lowered shapes such as buttons, rings or boxes. The effects can also be applied to existing graphics. Color/texture selection, adjustable extrusion depth and gloss. Used best in cooperation with an image editor.
