The player guides a small furry, bouncy and fragile Tiny across eight regions of the land. The regions each have unique music, color schemes and styles.

Moonstone: A Hard Days Knight

The player takes on the role of a chosen knight who is sent by druids to return the mystical 'moonstone' to Stonehenge. The game supports between one and four players at once, with the computer controlling any knights not controlled by human players as rival NPCs. Gameplay consists of two distinct modes: turn-based exploration and real-time combat.
