Galactic Civilizations

<https://vetusware.com/download/Galactic%20Civilizations/?id=17332>

From the back of the box: "Humanity has begun colonizing the stars. The Santa Maria, your colony ship, has set a course for a new star system. Unfortunately you encounter a "cosmic string". The interaction with your engine creates a wormhole and you are flung into an unknown galaxy. BUT the galaxy is home to non-human races. You must now use your brain to survive and then build a civilization and, if you can, be the dominate race."
