ABstat 5.05 for IBM PC

<https://vetusware.com/download/ABstat%205.05%20for%20IBM%20PC/?id=17385>

ABstat is a statistical package that contains a variety of statistical functions, creates graphs, features a command language, and can directly use dBase files. Archive includes two 5.25 360k floppy disk images. Includes Kryoflux dumps and manual scan.

Advanced Trace86 2.0

<https://vetusware.com/download/Advanced%20Trace86%202.0/?id=17386>

Advanced Trace86 is a full screen debugger tool that lets users visually trace through execution of 8086 machine code. Archive includes one 360k floppy disk image.

PeachText 5000 Tool Kit 1984

<https://vetusware.com/download/PeachText%205000%20Tool%20Kit%201984/?id=17387>

The PeachText 5000 Tool Kit is essentially an update to PeachText 5000 that adds a number of features and enhancements. Important: These disks are formatted for DOS 1.x and may not open in tools like WinImage.

Touch Typist 1983

<https://vetusware.com/download/Touch%20Typist%201983/?id=17388>

This is a small typing training program that is specific to Zenith-Z100 computers. Important: This software is specifically designed for Zenith Z-100 Series computers (not to be confused with Z-100 PC Series) and will not run properly on IBM PCs, IBM PC clones, or IBM PC emulators. Important: This disk is formatted for DOS 1.x and will not open in tools like WinImage.
