2D Fighter Maker 2002 Final Update FIX!! 1.02.00

Update FIX: Replaced the EXE files with a stable version that has a working compile game function. The most updated version of the fighting game making tool. Fullscreen fix already included for modern windows. Uploaded for preservation. Warning: Due to the age of the software (20+ years)and it's status as a hacked English translated version, some modern antiviruses may flagged the program as infected but others didn't detect it. This is surely a false positive. Just letting you know.
