God, Jesus Christ, is number one!
Jesus Christ.

Honours to my real mom Huong Thi Vu
Honours to my real dad Nguyen Binh Thuy

Love to my real sister Nguyen Khoa Thi
Love to my real sister Nguyen Khoa Thuyen

Content: Thank you Jesus Christ.

Well in this one the drawing program is fully documented. E is the exit key so that still needs to be documented. However after some heavy work and upsetting times I've been able to produce a full screen drawing program. Don't you know it has a possible "real estate" of 64 thousand dots that you could place on the screen? It is true. This is verified if you could take the time to count each position. Enjoy if you want. I hope you like it. I did it for my family who I listed above. I love them. When I die I know I'll be in Heaven because I gave my life away to take perfect care of them. Although I don't get any money I am giving my full source code and hard genius knowledge from God to you for free! So you owe God and Jesus Christ and Mary.

I am a nobody.

I know I am not popular. I only get 1 download most of the time. Jesus Christ. That is okay because I'm only starting out. Most doctors have to train 12 years before service. In fact doctors who are working doctors must graduate 12 years of highschool! In addition to all that most

doctors are always trying experimental drugs that could solve future problems. So in actuality doctors always study. However they are able to treat the problem. The cure only comes from The Holy One, God himself! For doctors are mere mortals. I am nobody. I never graduated and I collect welfare. So I am the scumbag of this entire universe. But, I love God for saving me a place although I do not deserve to be alive.

Anyways, to cut to the chase so cliche-ish. I have developed the next routine. Actuality, I have made it do something simple that I wanted. It is a small success for me. However I will always be humble knowing I cannot solve the Null Pointer Assignment. No matter how good I get it always will keep me in my place. Therefore, God is at fault for making me the best programmer of all time! I am The King of Programming for eternity. Although 1 mistake has cost me a perfect score.

Well, time to release this one to the public. It is a humiliating piece of work. Who would ever do things dot by dot? You have 512 bit systems now a days. You have millions of colors on Windows now a days. You have 3D modeling now a days. But, I am a mere piece of trash that can only do DOS and so far 16 simple colors. I am thrown away like it is nothing.

So for the rest of my life I thank God! Most of all I am happy God has given me my mother Huong Thi Vu.

Thank you God for finally directing my mind to find that problem! I am now a "PRO" at last. Well at least with the help of the Divine Holy One in Heaven. Also, Thank you God for my real mom Huong Thi Vu and my real dad Nguyen Binh Thuy for sending me to hell and back.   I am now 10 degrees hot. haha My sister Nguyen Khoa Thi and Nguyen Khoa Thuyen would probably be sitting and saying you kick butts and did it fair well at least if you consider God helping you fair. haha

This is the fixed one that loads and saves a little faster? I'm not all there because I am happy with God for eternity!

This attachment is a part of a little meaningful story that happened today. It is the journey to my success in figuring out "The Null Pointer Assignment Problem and my Pointer Achilles Heel Problem". It is so poignant that it caused me to achieve success for eternity! God is the main point however here is the story. At about midnight *something* came over me and I started to say to myself, "Wait a moment!" [Edit} I have to tell the story of my life. It is a sad story at first. I went crazy! I broke down and became a monster. I had no where to go and failed. But God was there for me. All the nice people you see are a part of God's people. The *bad* people may not be all that good idealistically however I was one of the bad apples at that point in time. It is sad that I once put the bad people down when they were the ones who helped me survive and live when no one wanted me. So The Holy Bible says even the evil loves those who love them.. Anyways I had to eat out of the trash literally however I cheated. I went to McDonalds and asked them if I could have anything. They told me I could have what was not sold however it was against store policy to give anything away since they would be out of business. So they saw I would be homeless soon so they dumped a batch of left over hamburgers (maybe 20) into a fresh and open clean bag right in front of my eyes. Of course it has to be in a trash bag that was black since they could not give it away. The main point is I eventually through the help of many "cheats" came to a place in time that I could not be living out of the trash anymore. Now a days I am still on welfare however it is far from being homeless. Of course it could still happen however if I remain "good" and "reformed" and not relapse into my bad state then I will be fine. However the road is long so I need God! I admit that I am a sinner and I need help from God and probably more than I realize.

Jesus Christ.

Once I was a failure. Now I am a success because of God for the rest of my life here on this earth. I live in Houston now at this home until I die. Thank you God for giving me a perfect mom (Huong Thi Vu); she works hard to give me a silver plate that I deserve! In this attachment is "success2.zip". It contains the enlightenment God gave me through submitting myself to his plan. At first from long ago (about a year ago) I didn't understand sh*t about pointers. haha You thought I was going to curse. haha Anyways, today I understanding everything about pointers all due to God's graces upon me for the rest of my life. And God has bless my mother with a happy remainder glean!!!!!!!!!!!!!
