<https://vetusware.com/download/NES-Roms.rar%201999/?id=17426>

NES-Roms.rar: Collection of 414 NES roms in the best possible state or good condition from the year 1999. In better state than other collections created later on the web! Can be played in the Nesticle Emulator with VDMSound2.1.0 audio drivers, or the JNES Emulator. Have fun! :-)
