Consists of three utilities U-ZAP.EXE, U-FORMAT.EXE and U-FILE.EXE U-Zap Display/Modify Disk Sectors. U-Format Format standard track, Re-format A Standard Track Without Erasing Old Data, Format A Non-standard (Copy-Protected) Track U-File Displays File directory information, attributes, change attribute, and build files from scratch (restoring erased file). Also contains a PDF copy of the original manual (also included) because printer could not keep the original pagination when printed. Thus the PDF copy.
