Day of the Tentacle, also known as Maniac Mansion II: Day of the Tentacle,[2][3] is a 1993 graphic adventure game developed and published by LucasArts. It is the sequel to the 1987 game Maniac Mansion. The plot follows Bernard Bernoulli and his friends Hoagie and Laverne as they attempt to stop the evil Purple Tentacle - a sentient, disembodied tentacle - from taking over the world. The player takes control of the trio and solves puzzles while using time travel to explore different periods of history.

The Master of Mischief is at it again. This time he has devised a great spelling bee in which he will submit robots to win the spelling bee for him! When you first log in, you will be asked to chose a category of words (Holiday, homophones, etc.). You are then brought to a screen with three options: Crisscross, Flash Cards, and Word Search. Crisscross is a sort of crossword puzzle, but instead of clues you just need to figure out where the words go. Flash cards are flash cards... You hear or see a word and then spell it out. Word finder is a grid filled with letters wherein several words are hidden. Once you finish the above you can enter a spelling bee where you face the Master of Mischief and/or his robots. Winning opens up new levels of competition such as Regional or International. from: "https://archive.org/details/spell_202209"
